

Pit Healing 2008

Thanks to all who participated in what was once again a very special day - LiFE Academy's Pit Healing 2008

Thanks to Nundjan, Kadambii and Vasu for sharing their knowledge, wisdom, healing and generous hearts. Many others contributed greatly to this day, not least of all the LiFE Academy's wonderful students who contributed with their own wisdom and generosity of heart.

Special mention must go to the several international and interstate guests and students who made the trip to Perth to share in the event. Their presence always brings an expanded healing energy and draws into focus the importance of the healing work for the welfare of all life on our little planet.

Following are a collection of photos from the day. For those of you at the event who have your own photos you would like to share please respond to this post... and attach them. If you have any troubles with this you could also forward them to me at karun@lifenaturalhealthcentre.com.au and I will be happy to post them here for everyone's enjoyment!

Early morning faces gather round the fire...

Worlds merge...

Painting faces uniting all for the healing journey ahead...

Dawn breaks for a quick drink and time to gather round the lake and flowers for inspirational talks from Vasu, Kadambii, Nundjan, Jindi and Tammy...

Time to gather together, gather the flowers and head down to the pits...

Kadambii and Vasu direct traffic as Nundjan keeps a close eye on proceedings...

Karen prepares for take-off...

Many hands...

We unite our hearts and mind with the land, the flowers, each other and the healing...

Bliss...

Clapping, stomping, chanting, didgeridoo all contribute to the healing journey for those in and around the pits...

A brief pit stop...
